THE RIVER PATIL. IN JOHN G. WHITTIER The following new and beautiful poem, from - Ed. Independent [

No bird-song floated down the hill, The tangled bank below was guilt; No rustle from the birehen stem,

No ripple from the water's hem-Tas dusk of twillight round us grew, We felt the falling of the dew;

For, from us, ere the day was done

But on the river's farther vide We saw the hill-tops giorifed. A tender glow, excepting fair,

A dream of day without its glare, With as the damp, the chill, the gloom: With these the shuet's rony blocm;

While lark, through willowy virine seen, The river relied in shade between. Eron out the dathness slowe we trid We gazed upon those hills of Gol.

Whose right secured not of mean or sun. We spake not, but our thought was one. We passed, as if from that bright shore Backoned our dear opts gone before; And stilled our beating hearts to hear The voices just to martal ear

Saiden our patieway turned from night. The hills swaing open to the light : Through their green gutes the sandline sho A long, slant splen for dewnward flowed. Down glade and glen and bank it relied, It bridged the shaded stream with gold;

And, herne on Time of mist, allied The shadowy with the rapid side I "So," prayed we, Swisen our feet draw near The river, dark with mortal lear. And the night cometh skill with dev

EUROPE.—The New York correspondent of field Mountain Friday. He went up with the Mobile Register relates the following:

a party from this side, well-ing the last trans-[From the middlebury Register.] Douglas' Spencues .- Made in his recent tour trough New England, the dailies give in full; we of course cannot. But fortunately we have space for the substance of what he said on these occasions. It is an easy matter to condense all that he said on the Slavery question, (and of course he spoke of no other.) as well as what he has been saying for the last three or four years, whenever he has opened his mouth. Mr. Douglas may be fond of spirit, but he evidently cares little for spice-at least, that sort of spice sometimes called variety. His speeches are all the same thing. They remind us of the amid the cheers and laughter of the crowd. The man who was said to furnish his boarders menageric is fed, accordingly, the chicken being with pork and beans for breakfast, beans passed in on the end of a long pole. and pork for dinner, and the leavings warmed over for supper. But we promised to give an abstract of his late speeches. As they are here considerably condensed, (though no important point is omitted) the report is not to be considered as given cerm, but only, as the editors of the classics

would say, ad sensum. "My friends, I really didn't expect such a turn-out here. It cannot be that you think so much of me, as an individual, as all this fuse seems to indicate. I would feel flattered place was injured. No lives lost.

DISUNION DEFERRED .- The Washington | AMERICAN ASSOCIATION FOR THE | ADVANCEMENT OF SCIENCE.

> Prof. Newbury gave a paper on the oll wells of the West. He said that the subject was practical and economical. The location of the wells in Pennsylvania was well known. The wells have been known for many years. They were known before the setsome places. Lately a man digging for a well took one of these old pits, and after digging 27 feet, came upon an old crib of timbers built up to eatch the petrolium. Old trees, two feet in diameter, stood over the site. Most of the section of the ships building for stood over the site. stood over the site. Most of the wells produce twenty-five barrels. One opened last week producad 150 barrels in 25 hours. Specimens of oil were
